PRE-CONTRACT VAT ENQUIRIES (February 2014 Edition)

Subject to Contract / Contract Denied

To be answered prior to settling the conditions of sale where VAT is relevant¹ © Law Society of Ireland

Vendor: Neil Bannon and Paul Doyle in their capacity as receivers over certain assets of Patrick J (otherwise P.J., otherwise Patrick) Daly and Ann Daly

Vendor's VAT Registration No: _____

Purchaser: _____

Subject Property: Unit 1 Aldborough Court, Dublin 1

“Occupational Lease” means a lease which is not a freehold equivalent interest as defined in Section 2(1) the VAT Act.

“PCVE” means these Enquiries.

“Tenant’s Refurbishment” means capital goods as described in Section 64(7) of the VAT Act.

“VAT Act” means the Value-Added Tax Consolidation Act 2010 as amended from time to time and related VAT regulations.

“TOB” means transfer of a business or part of a business under Section 20(2)(c) the VAT Act.

Reference to “VAT Special Condition 3” means the recommended format of VAT special condition current at the time of sale as referred to in Special Condition 3 of the Law Society’s standard General Conditions of Sale.

Private Treaty Sale

Prior to the presentation of the draft Conditions of Sale by Private Treaty, the Purchaser shall complete the Purchaser Statement on the Purchaser’s VAT status on Page 3 and issue these PCVE in duplicate to the Vendor. After completing the answers, the Vendor shall complete the drafting of Special Condition 3. The Vendor shall then send the draft Conditions of Sale together with one completed form of these PCVE to the Purchaser.

Auction Sale

When furnishing the Conditions of Sale for an auction sale, the Vendor shall answer these PCVE purely for the purposes of providing VAT information to a prospective Purchaser in relation to the sale of the Subject Property, including a sale which would otherwise be exempt,² on the assumption that the prospective Purchaser is a taxable person who will exercise the joint option to tax the sale but without prejudice to the Purchaser’s right to opt, or not to opt, as provided in Special Condition 3.

The enquiry part of these PCVE is divided into 7 Sections:

- Section 1:** Is VAT chargeable on the sale.
Section 2: Vendor charges VAT at the appropriate reduced rate.
Section 3: Purchaser self accounts for VAT at the appropriate reduced rate.
Section 4: Transfer of Business.
Section 5: Vendor charges VAT at the standard rate.
Section 6: Sale of Let Property.
Section 7: Tenant’s Refurbishment.

¹ This form is not appropriate for use:

- on the sale of secondhand residential property sold in a private capacity;
 - on the sale of new residential property to a Purchaser as a private person for a VAT inclusive consideration;
 - on the grant of an Occupational Lease; or
 - on a sale where VAT Special Condition 3 will be deleted entirely and the Purchaser does not require to know the VAT history of the Subject Property.
- In any such case Special Condition 3 will be deleted entirely

² “Exempt” includes the situation where the property is not mandatorily taxable but the joint option to tax may be exercised where both parties are taxable persons.

Where appropriate the terms “vendor”/“landlord” and “purchaser”/“tenant” are used interchangeably.

The Vendor should answer these PCVE in the section(s) which are relevant to the sale of the Subject Property.

Where there is insufficient space, the Vendor should provide the answer on an attached sheet or attached sheets.

For each part of the Subject Property which has a separate VAT status, a separate set of answers will be required.

The purposes of these PCVE are to enable the Purchaser’s Solicitor to obtain the information necessary to advise the Purchaser on VAT issues relating to the Subject Property and to assist in the drafting of Special Condition 3. These purposes are stressed as in certain situations these PCVE may require more information to be furnished than is necessary and in other situations more information may actually be required.

To avoid serious difficulties, it is important that Special Condition 3 is drafted to suit the VAT status of the sale and paragraphs which are not relevant are struck out or omitted. A guide (the “Guide”) as to how, using the answers to these PCVE, the Vendor shall settle VAT Special Condition 3 is set out on pages 19 to 25. If VAT Special Condition 3 is to be struck out in its entirety and the Purchaser does not require to know the VAT history of the Subject Property, it is not necessary to use these PCVE.

These PCVE, the Guide and VAT Special Condition 3 are general in nature and may not cover all situations. If in doubt, the advice of a tax expert should be sought.

These PCVE shall be furnished in its entirety without amendment.

Warning: Before answering the PCVE, the Vendor should be satisfied as to the VAT status of the Subject Property and the sale. The answers will be relied upon by the Purchaser.

We certify that these PCVE are those as issued by the Law Society of Ireland (February 2014 Edition) without alteration or omission and that the numbering is unchanged.

33 Section 20(2)(c) of the VAT Act.

34 This includes transitional properties held on 1 July 2008 by a taxable person where the Vendor had the right to deduct VAT on the acquisition or development. The supply of these properties is taxable under the VAT Act as a supply of immovable goods without reference to the exercise of any joint option. This enquiry can only be answered in the affirmative where development (other than minor development) to a non residential property has been completed within 5 years prior to completion of the sale and the property has not been occupied for at least 2 years.

35 This includes:

(a) a transitional freehold/freehold equivalent property held from prior to 1 July 2008 which is not new or nearly new and where the Vendor had the right to deduct VAT; and

(b) a transitional freehold/freehold equivalent property held prior to 1 July 2008 where the Vendor is a taxable person and had no right to deduct VAT on the acquisition or development regardless of whether the property is new or nearly new.

36 Section 2(1) of the VAT Act defines “development” as the construction, demolition, extension, alteration or reconstruction of any building on the land, or the carrying out of any engineering or other operation in, on, over or under the land to adapt it for a materially altered use. This does not include minor development to a building which does not adapt the building for a materially altered use and the value of the works do not exceed 25% of the value of the property at the time of the sale.

Vendor/Solicitors for Vendor

Purchaser/Solicitors for Purchaser

⁴⁹ This Section need only be completed where the Subject Property is an interest under an Occupational Lease. A tenant under an occupational lease who was not entitled to deduct all of the VAT incurred on the acquisition or development of a refurbishment is NOT entitled to transfer responsibility to an Assignee or Surrenderee.

PLEASE NOTE THAT WHEN COMPLETING A CONTRACT FOR SALE IT IS NECESSARY TO INSERT THE CURRENT RECOMMENDED FORMAT OF VAT SPECIAL CONDITION 3 (available at www.lawsociety.ie in the precedents section of the members' area) AMENDED AS APPROPRIATE.

1. VAT Inclusive Selling Price/ Vendor Charges no VAT/ VAT not Relevant to the Sale

Where the sale of the Subject Property is by auction or private treaty:

- (a) of second-hand residential property sold by the Vendor in a private capacity;
- (b) of a new residential property sold to a private Purchaser and the selling price is VAT inclusive;
- (c) of a freehold/freehold equivalent interest which:
 - (i) is not sold as a TOB where the subject property comprises capital goods; and
 - (ii) is a VAT exempt sale in which the Vendor is neither requesting the Purchaser to exercise the joint option to tax nor requiring the Purchaser to pay the Vendor the amount of the Vendor's capital goods adjustment on the sale;
- (d) by the assignment or surrender of an Occupational Lease which is not:
 - (i) a TOB comprising a legacy lease; and
 - (ii) a supply of a good or a service where VAT is chargeable on the sale; or
- (e) of any other category of sale, not being a TOB referred to in (c)(i) or (d)(i) above, in which VAT will not be chargeable either as the supply of a good or a service;

delete Special Condition 3 entirely.

2. The Vendor Charges VAT at the Appropriate Reduced Rate (Special Condition 3.2)

Special Condition 3.2 is intended for use where the sale of the Subject Property, not being a TOB, is:

- (a) by private treaty or auction of a partially developed freehold/freehold equivalent interest;
- (b) by private treaty or auction of a freehold/freehold equivalent interest coupled with a building agreement;
- (c) by private treaty or auction of a completed "new or nearly new" freehold/freehold equivalent interest;
- (d) by private treaty only, by way of the assignment or surrender of a legacy lease to a person not specified in Section 95(8)(c) of the VAT Act⁵⁰ and which is not covered in (e) below; or
- (e) by private treaty only, by way of the assignment or surrender of a legacy lease to a person

⁵⁰ In other words, the Purchaser has answered "No" to Item 2 of the Purchaser's Statement on Purchaser's VAT Status. See footnote 5.

not specified in Section 95(8)(c) of the VAT Act⁵¹ where the Vendor is a person described in Section 95(7)(b) of the VAT Act who requires the option to tax to be exercised.

In situation (a) or (b), use Special Condition 3.1, 3.2.1 and 3.11 only.

In situation (c), use Special Condition 3.1, 3.2.1, 3.2.2 and 3.11 only.

In situation (d), use Special Condition 3.1, 3.2.1, 3.2.3 and 3.11 only.

In situation (e), use Special Condition 3.1, 3.2.1, 3.2.4 and 3.11 only.

In each case, delete all other clauses in Special Condition 3.

3. The Purchaser Self Accounts for VAT at the Appropriate Reduced Rate (Special Condition 3.3) in a Private Treaty Sale

Special Condition 3.3 is intended for use where the sale of the Subject Property, not being a TOB or an auction sale, is:

- (a) of a freehold/freehold equivalent interest in property, the sale of which is exempt where the Vendor (including a Vendor who is a person described in Section 95(3) of the VAT Act exercising an option under Section 94(5) of the VAT Act) requires that the Purchaser shall cooperate in the exercise of the joint option to tax the sale of the Subject Property⁵²;
- (b) by way of the assignment or surrender of a legacy lease to a Purchaser who is a person specified in Section 95(8)(c) of the VAT Act which is not covered in (c) below;
- (c) by private treaty only, by way of the assignment or surrender of a legacy lease, where the Vendor is a person described in Section 95(7)(b) of the VAT Act⁵³ who requires that the Purchaser, who is also a taxable person, agrees to cooperate in the exercise of the joint option to tax the sale.

In situation (a), use Special Condition 3.1, 3.3.1 and 3.11 only.

In situation (b), use Special Condition 3.1, 3.3.2 and 3.11 only, except where in addition to the sale, the Vendor requires the Purchaser to take responsibility for a Tenant's Refurbishment⁵⁴, in which case use 3.10 also.

In situation (c), use Special Condition 3.1, 3.3.3 and 3.11 only.

In each case, delete all other clauses in Special Condition 3.

4. The Purchaser pays the Vendor an amount to compensate the Vendor for the Vendor's liability to pay a Capital Goods Adjustment or to receive a Capital Goods Adjustment which arises on the sale of a Freehold/Freehold Equivalent Interest which is exempt (Special Condition 3.4)

Special Condition 3.4 is intended for use where the sale, being of a freehold/freehold equivalent interest in property, is not chargeable to VAT, but where as a result of the sale, the Vendor will

51 Ibid.

52 Refer to paragraph 11 of this guide (below) for commentary on the exercise of the joint option.

53 The Vendor was not entitled to deduct VAT on the acquisition or development prior to 1 July 2008 of the Subject Property.

54 "Tenant's Refurbishment" means capital goods as described in Section 64(7) of the VAT Act.

suffer a capital goods adjustment and if the Vendor was only entitled to partial deductibility on the acquisition or development of the Subject Property, will be unable to reclaim a capital goods adjustment from Revenue by reason of the sale being exempt and requires the Purchaser to pay the Vendor a sum in addition to the selling price to compensate the Vendor for the amount of such capital goods adjustment or adjustments. This condition can be used in either a private treaty sale or an auction sale of an exempt property where the Vendor does not intend to exercise the joint option to tax.

After every interval in the adjustment period until the adjustment period has expired, the amount of the Vendor's liability and, if applicable, reclaim entitlement on the sale of a property comprising capital goods will reduce. The Special Condition has been drafted to provide that where there is a delay in the completion of the sale and an interval⁵⁵ passes or intervals pass, the amount payable by the Purchaser in respect of the Vendor's capital goods adjustment or adjustments will be reduced so as to conform with the Vendor's actual liability.

Use Special Condition 3.1, 3.4 and 3.11. Delete all other clauses in Special Condition 3.

Rather than use 3.1, 3.4 and 3.11 a Vendor may find it convenient to omit special condition 3 entirely and simply specify a composite selling price.

5. Sale by Auction of a Freehold/Freehold Equivalent Interest which is a Capital Good where, to preserve a VAT neutral position on the sale, the Vendor requires either to be paid an amount to cover the Vendor's Capital Goods Adjustment(s) on the sale or to have the joint option to tax exercised (Special Condition 3.5)

Special Condition 3.5 is intended for use where the sale of the Subject Property being of a freehold/freehold equivalent interest is exempt, but still comprises capital goods. Unless the joint option to tax the sale is exercised, the Vendor must account to Revenue for the capital goods adjustment which will arise for Vendor on the sale and if the Vendor was only entitled to partial deductibility on the acquisition or development of the Subject Property, the Vendor will lose the right to claim a capital goods adjustment from Revenue on the sale.

If the Purchaser is not a taxable person or does not agree to exercise the joint option to tax, the Vendor will generally wish to be compensated by the Purchaser (by way of an additional payment on completion) for the Vendor's liability to pay and if appropriate forego any capital goods adjustment. When a Vendor's solicitor is settling the conditions in an auction sale of this particular type of sale, the VAT status of the Purchaser will be uncertain. Therefore, the Vendor will generally require the Purchaser either to pay the Vendor the amount of any Vendor's capital goods adjustment or adjustments which arises on the sale or, if the Purchaser is a taxable person, to co-operate in the exercise of the joint option to tax the sale.

This condition provides that the default position is that in addition to the Purchase Price, the Purchaser will pay the Vendor the amount of the Vendor's capital goods adjustment but if the Purchaser is a taxable person, the Purchaser has the right, by notifying the Vendor prior to the closing date, to cause the joint option to tax to be exercised whereupon the Purchaser will self account for VAT on the sale.

Use Special Conditions 3.1, 3.5 and 3.11. Delete all other clauses in Special Condition 3.

55 See definition of "interval" in Section 63 (1) of the VAT Act

Special Condition 3.5 is only appropriate for an auction sale of a freehold equivalent interest in the circumstances described above. For an auction of other classes of property see paragraphs 2 and 6.

6. Sale by Auction of Legacy Lease (Special Condition 3.6)

Special Condition 3.6 is intended for use where the sale is by auction of a legacy lease where:

(a) the Vendor is a taxable person selling to:

- (i) a Purchaser who is a person who is obliged to self-account for any VAT on sale; or
- (iii) a Purchaser who is not a person described in Section 95(8)(c) of the VAT Act in which case the Vendor must account for the VAT on the sale and will wish to pass on this VAT cost to the Purchaser; or

(b) the Vendor is a person described in Section 95(7)(b) of the VAT Act⁵⁶ who requires the sale to be made taxable or to be compensated in lieu for loss of a capital goods adjustment.

In situation (a) above, use Special Condition 3.1, 3.6.1 and 3.11 except where as part of the sale the Vendor requires the Purchaser to take responsibility for a Tenant's Refurbishment⁵⁷ in which case use 3.10 also.

In situation (b) above use Special Condition 3.1, 3.6.2 and 3.11.

In each case delete all other clauses in Special Condition 3.

7. On the sale of a Subject Property constituting a TOB, no VAT applies but the Vendor is required to provide certain information to the Purchaser relating to capital goods (Special Condition 3.7)

Special Condition 3.7 is intended for use in the case of a TOB. If the answer to PCVE 1 is "No" and PCVE 1.1d and PCVE 4 is "Yes", use Special Condition 3.1, 3.7 and 3.11.

8. On the assignment or surrender of an Occupational Lease (other than a Legacy Lease) for a premium paid by the Purchaser to the Vendor, the Purchaser pays the Vendor VAT at the standard rate (Special Condition 3.8)

The assignment or surrender by a Vendor, being a taxable person, of an occupational lease for a premium paid by the Purchaser is regarded not as the supply of immovable goods but rather as the supply of a service which is generally taxable at the standard rate.

VAT is chargeable on a premium paid for:

- (i) the assignment of an occupational lease created on or after 1 July 2008;
- (ii) the surrender of an occupational lease created on or after 1 July 2008 where the landlord's option to tax the rent was not exercised; or
- (iii) the assignment of an occupational lease created prior to 1 July 2008 for a term of less

⁵⁶ See footnote 50.

⁵⁷ See footnote 54.

than 10 years where a waiver of exemption from VAT on letting services was exercised and is in place at the date of the assignment.

However where the occupational lease:

- (a) assigned or surrendered is a legacy lease which is still in the adjustment period, the sale is taxed at the appropriate reduced rate and any premium paid is ignored;
- (b) assigned or surrendered was created prior to 1 July 2008 for a term of less than 10 years and is not subject to a waiver of exemption by the landlord in respect of the rent or other consideration payable thereunder, the sale is exempt and any premium paid is ignored;
- (c) assigned or surrendered is a legacy lease but the adjustment period has expired or another class of occupational lease created prior to 1 July 2008 which was not in the VAT net on 1 July 2008, the sale is exempt and any premium paid is ignored; or
- (d) surrendered only, was created on or after 1 July 2008 where the landlord's option to tax has not been exercised, the sale is exempt and any premium paid is ignored.

If the answer to PCVE 1 is "Yes", the answer to PCVE 2, PCVE 3 and PCVE 4 is "No" and the answer to PCVE 5 is "Yes", use Special Condition 3.1, 3.8, 3.10 (if relevant) and 3.11. Delete all other clauses in Special Condition 3.

9. On the assignment or surrender of certain Occupational Leases (other than Legacy Leases) for a premium (reverse premium) paid by the Vendor to the Purchaser, the Vendor pays the Purchaser VAT at the standard rate (Special Condition 3.9)

The Law Society Taxation Committee understands that Revenue regard the following supplies as taxable at the standard rate:

- (a) the surrender for a reverse premium by a taxable person of an occupational lease created on or after 1 July 2008 where the landlord's option to tax the lease is in place;
- (b) the surrender by a taxable person for a reverse premium of an occupational lease created prior to 1 July 2008 for a term of less than 10 years where the landlord's waiver of exemption has been exercised in respect of the let property and is in place; and
- (c) the assignment for a reverse premium by a taxable person of an occupational lease created on or after 1 July 2008.

In each of situations (a), (b) and (c) above use Special Condition 3.1, 3.9 and 3.11 and if, in addition to the assignment or surrender, the Vendor requires the Purchaser to accept responsibility for a Tenant's Refurbishment⁵⁸, use Special Condition 3.10 also. Delete all other clauses in Special Condition 3.

According to the best information available to the Law Society Taxation Committee, Revenue regard the following supplies as exempt:

- (i) the assignment or surrender by a taxable person for a reverse premium of an occupational

lease for a term of 10 years or more created prior to 1 July 2008 which is not a Legacy Lease or which was such a Lease but in respect of which the adjustment period has expired.

- (ii) The assignment or surrender by a taxable person of an occupational lease for a term of less than 10 years created prior to 1 July 2008 where the landlord did not waive his exemption from VAT on rent.

10. On the assignment or surrender of an Occupational Lease, the Vendor requires the Purchaser to become responsible for the tenant's capital goods (Tenant's Refurbishment⁵⁹) of the Vendor (Special Condition 3.10)

Special Condition 3.10 is intended for use where a Vendor who was entitled to deduct all VAT incurred on the installation of a Tenant's Refurbishment wishes to oblige the Purchaser to assume responsibility for it after completion.

If the answer to PCVE 7 is "Yes", use Special Condition 3.10 in addition to the relevant Special Condition for the sale of an occupational lease.

11. Note on the Joint Option to Tax

It should be noted that a contract for sale is a Vendor's document, and in this context draft Special Condition 3.3 represents the best position for a Vendor. However, the same cannot be said as regards the position of a Purchaser.

Thus, in this context it is important that a practitioner acting for a Purchaser, on receipt from the Vendor of the draft Conditions of Sale where Special Condition 3.3 is used, also receives responses to the Pre-Contract VAT Enquiries to satisfy him/herself of the correct or best VAT treatment for his or her client.

This is illustrated in two situations.

Situation 1

VAT Special Condition 3.3 as drafted ensures that a property sale that is prima facie exempt from VAT but which is capable of being made subject to VAT by the way of a joint option to tax, is so jointly opted by agreement of both the Vendor and Purchaser, or the Purchaser agrees to pay a compensatory amount to the Vendor to cover any VAT costs. Generally speaking the option to tax will be utilised to ensure the Vendor avoids a VAT liability to Revenue, or alternatively to increase VAT recovery for the Vendor where VAT in relation to the Subject Property was previously disallowed, both being to the benefit of the Vendor.

This may well not be in the best interests of a Purchaser, and a Purchaser should be made aware that in agreeing to such a joint option there are the following implications:-

- i. The Vendor may secure the advantage of avoiding a VAT liability or increasing VAT recovery;
- ii. It brings an otherwise VAT exempt property into the VAT net;

59 See footnote 54.

- iii. The Purchaser must monitor the use of the Subject Property for the next 20 years or until sold;
- iv. The Purchaser will have an exposure to VAT costs for any VAT exempt use of the Subject Property over the next 20 years, such exposure to be met from the Purchaser's own resources;
- v. If the Purchaser wants to sell at anytime in the next 20 years, in the absence of major development by him, he will have to get the purchaser from him to agree to a joint option, otherwise he will incur VAT costs; and
- vi. The Purchaser has effectively created a capital good for which he must continue to maintain capital goods records.

Situation 2

This relates to the takeover of a refurbishment capital good by a landlord/assignee on surrender/assignment of an occupational lease. VAT Special Condition 3.10 as drafted provides that, where such a capital good has been created by a Vendor (tenant), the Purchaser (landlord/assignee) agrees to take same over for the purposes of the VAT Act. This mechanism will be utilised to ensure the Vendor (tenant) avoids a VAT liability to Revenue, thus it being to the benefit of the Vendor (tenant).

A refurbishment is defined as development of an existing building, etc. Development means the construction, demolition, extension, alteration or reconstruction of any building on the land, or the carrying out of any engineering or other operation in, on, over or under the land to adapt it for materially altered use, which is very wide. A tenant fit out or other works may very well fall into the definition.

This may well not be in the best interests of a Purchaser, and a Purchaser should be made aware that in agreeing to such a take over there are the following implications:-

- i. The Vendor (tenant) may secure the advantage of avoiding a VAT liability;
- ii. The Purchaser (landlord/assignee) must monitor the use of the refurbishment for the remainder of its Adjustment Period (possibly up to 10 years);
- iii. The Purchaser (landlord/assignee) will have an exposure to VAT costs for any VAT exempt use of the Subject Property over its Adjustment Period (possibly up to 10 years), such exposure to be met from the Purchaser's own resources; and
- iv. The Purchaser (landlord/assignee) steps into the Vendor's (tenant's) shoes for the remainder of the Adjustment Period, and any VAT costs due to exempt use would be in effect a claw back of VAT recovered by the Vendor (tenant).
